

## Workshop on Control of multi-drug resistant organisms (MDRO) in healthcare settings

**Organised by Infectious Disease Control Training Centre &  
Chief Infection Control Officer's Office, Hospital Authority, and  
Infection Control Branch, Centre for Health Protection**

### Objectives:

1. Update on MDRO control in healthcare settings, with emphasis on the following aspects:
  - Role of active screening in patients at risk
  - Environmental cleaning and disinfection
  - Ways to reduce bacterial shedding in patients infected/ colonized with MDRO and environmental contamination
  - Bundled approach on MDRO control
2. Preparation for the quality improvement programme on MDRO control in HA hospitals.

### Programme Rundown:

<i>1 Mar 2011: Workshop on MDRO control</i>		
Time	Topic	Speaker
8:30 – 9:00	Registration	
9:00 – 9:30	- Welcome address - Presentation of certificate of appreciation to speakers	Dr. TY Wong & Dr. NC Tsang
Session I Moderator: Dr. TY Wong		
9:30 – 10:10	Management of patients colonized with MDRO: role of active surveillance and decontamination	Dr. ML Ling
10:10 – 10:45	Modeling Hospital Social Networks and MRSA spread	Dr. S Huang
10:45 – 11:10	CRE in Hong Kong	Dr. WK Luk
11:10 – 11:25	Break	
Session II Moderator: Dr. TL Que		
11:25 – 12:05	The patient environment: When is important in infection control?	Mr. P Hoffman
12:05 – 12:45	Decontamination of the patient environment: practical and quality assurance issues	Mr. P Hoffman
12:45 – 14:00	Lunch	
Session III Moderator: Dr. KW Choi		
14:00 – 14:40	Effectiveness of antibiotic stewardship programme on MDRO control	Dr. A Apisarnthanarak
14:40 – 15:20	Use of WHONET for detection of MDRO outbreak	Dr. S Huang
15:20 – 15:30	Break	
Session IV Moderator: Dr. WH Seto		
15:30 – 16:20	How to prioritize resources and strategies on control of MDRO	Dr. ML Ling
16:20 – 17:00	VRE: a local perspective	Dr. B Lam
End of Day 1		

<b>2 Mar 2011: Workshop on MDRO control (cont'd)</b>		
8:30 – 9:00	Registration	
Session V	Moderator: Dr. Raymond Lai	
9:00 – 9:45	The UK approach to reducing MRSA bacteraemias	Mr. P Hoffman
9:45 – 10:30	Control of MDRA in resource limited settings	Dr. A Apisarnthanarak
10:30 – 10:45	Break	
Session VI	Moderator: Dr. Dominic Tsang	
10:45 – 11:30	Current trials on MDRO containment	Dr. S Huang
11:30 – 12:15	Introduction to the quality improvement programme on MDRO control in HA hospitals	Dr. V Chuang
12:15 – 12:30	Concluding remarks	Dr. TY Wong & Dr. NC Tsang
End of Day 2
