

Ir Dr PL YUEN

Senior Manager (Engineering), Hospital Authority

Ir Dr P L Yuen is the Senior Manager of the Hospital Authority Head Office overseeing all electrical & mechanical and building services engineering facilities management subject across all public hospitals since the establishment of the Hospital Authority back in 1993.

He is an engineer by training with an Engineering Doctorate Degree researching into hospital isolation ventilation design. Before joining HA he worked in the Government's Electrical & Mechanical Services Department for over ten years on public hospital construction. In the late 80's under the Confederation of British Industry (CBI) scholarship he had also worked for hospitals in both Europe and Middle East.

On voluntary works, he has served as the Expert Advisor for the WHO and UN on the construction of hospital isolation rooms in the Republic of Indonesia, and as lead hospital engineer helping the HKSAR Government to inspect hospitals under the Sichuan Earthquake re-construction projects.
